

LIFELOC LAMINATE™

Lifeloc Laminate is a 100 percent urethane laminate backing system engineered for heavy commercial use. Lifeloc Laminate is recommended for use in airports, hospitals, schools, medical offices, assisted living centers, convention and exhibit halls, and areas subject to heavy commercial traffic and liquid spills

Lifetime Warranty

- Lifetime high tuft bind (wet or dry)
- Lifetime dimensional stability
- Lifetime against edge ravel or zippering
- Lifetime against delamination
- Lifetime against pilling and fuzzing
- Lifetime cushion resiliency

Superior Appearance Retention

- Enhanced moisture resistance – spills stop at the base of the tuft
- Improves appearance by absorbing traffic shock
- Lifeloc Laminate does not deteriorate with age

Environmental Impact

- Extending the life of carpet = less carpet to the land fill
- Backing scrim 100% recycled non woven scrim
- PVC free, chlorine free
- No 4PCH
- Non toxic seam sealer
- Indoor Air Quality Benefits
- CRI Green Label Certified
- Recyclable
- Exceeds industry standards

Lower Life Cycle Cost

- Lifeloc Laminate extends the life of tufted carpet a minimum of 40%
- The longer carpet lasts, the less it costs

Moisture and Maintenance Benefits

- Enhanced moisture barrier
- Passes British Spill Test
- Prevents wicking
- Improves ability to remove spills
- Helps eliminate odors

Application Flexibility

- Lifeloc Laminate is available on most patterns and styles

Inhibits Microbial Growth

- Does not support mold and mildew growth

Installation Friendly

- Product does not inhibit pattern match
- Temperature stable

Improves Safety

- Helps to prevent serious slip and fall injuries
- Passes ADA requirements

Roller Mobility

- Does not inhibit roller traffic

Acoustical Benefits

- Improves sound absorption for a more quiet work environment

Thermo Insulator

- Helps keep building warmer in winter and cooler in summer
